Dear Students, Families, Staff, and Community Members,

As we prepare for the upcoming school year, we are excited to share an important update for our K-5 buildings.

Students in grades K-5 will participate in a specials rotation that includes music, art, physical education, library, counseling, and science. These experiences are designed to provide students with a well-rounded foundation and to support the elective opportunities they will explore in middle school.

All core content areas and specials classes will continue to utilize standards-based reporting to ensure clear communication of student progress and learning goals.

We look forward to another year of growth, exploration, and achievement for all students.
